**Sponsor : Rutli Stiftung Fund**

Hi everyone, this is regarding one of the valuable projects we have done with the sponsorship of Rutli Stiftung fund. Here in our village, rural areas a lot of elderly people with many vision issues and due to the higher expenses of the Eye glass frames and the Lenses, here rural poor people not making eye glasses for their vision issues. Most of the people are labors and they really cannot offer to have eye glasses for them with their income and mostly they leave it and do not care about having eye glasses even they really need it. Also, many people have requested from us and Helfen\_hilft to help on this matter and due to that we have focused on this matter as a higher requirement for this area as well.

After considering all these requests and requirements we have realized that this is something to cure the vision of the people and we are going to ask for the support this great community work for this time. Luckily the Rutli stiftung fund has considered our request and funded us for doing this great work.

09<sup>th</sup> of June 2025, we have organized this eye checking camp in the temple of Wathurawela area and the team of Vision Plus Eye technicians and 02 Eye Specialists doctors has arrived to this place to check on these people's eyes and assist them with their requirements. During the day, more than 250 people came to check on their eye issues and according to the doctors' examinations over 70 people we have to refer and send them to the hospitals and eye clinics because, Majority of those people have cataracts and they need surgeries for that. Some of other people have varies eye issues than vision troubles. After that eye technicians have checked the people who needs eye glasses and they have noted all of the measurements and lenses requirements for those people. All together we have 167 people who needs eye glasses and then we have asked for the Eye Technicians and the opticians to prepare those all Eye glasses for the people who really needs it. That's a really a huge support for the community and we are really appreciating the support and the courage you all are giving us on this project to make it success.

Specially organizing this project, The Rutli Stiftung fund has sponsored us to arrange all these including all the lenses, for the Doctors and Eye technicians. Also, snacks and all other requirements for the people has covered by the Rutli Stiftung Fund. The Mr. Andreas Sikau and other donors from Switzerland have donated us many Eye glasses and the Frames which we have used all of them to cure these peoples Eyes. Here we specially taking a part to thank you all for all these supports you have given us to make this successful.
